

WAS#12

VoLTE & 5G ROAMING ROUNDTABLE

October 20, 2020 | Virtual Session

BE THERE FIRST

ROUNDTABLE OBJECTIVE

Stimulate interaction and **information sharing** with Mobile operators on VoLTE Roaming and 5G Roaming, despite limitations of its virtual nature

A pragmatic and **constructive** discussion, allowing early adopters to find each other and share their experiences and the ecosystem to benefit

ON THE AGENDA

14:00 – 14:05	Welcome & Introduction Session Objective & Agenda	Patrick George, EVP Product & Business Development, iBASIS
14:05 – 14:15	Travel & Roaming Outlook	Jon King, CCO, Kaleido Intelligence
14:15 – 14:25	VoLTE Roaming Taskforce Update	Dhiraj Wazir, CEO, ROCCO Strategy
14:25 – 14:35	Operator’s perspective: Verizon	Jason Olivieri, Manager Roaming Marketing, Verizon Customer Group
14:35 – 14:45	Operator’s perspective: Reliance Jio	Luc Lamoureux, Director International Roaming and Network Planning, Reliance Jio
14:45 – 14:55	The 5G IPX Perspective	Mehmet Turunc, 5G Product Lead, iBASIS
14:55 – 15:00	Conclusions & Wrap-up	Patrick George

Travel & Roaming Outlook

14:05 – 14:15

Jon King, CCO

Travel & Roaming Outlook 2020

iBASIS VoLTE & 5G Roundtable WAS#12

Presentation by Kaleido Intelligence

roaming.kaleidointelligence.com

COVID-19 IMPACT ON TRAVEL & TOURISM: Q3 2020 UPDATE FROM KALEIDO

Fall in International Arrivals Travel Volume, H1 2020 Actuals

Kaleido expect a decline in travel of around 64% and 1.3 billion in travel trip volume in 2020.

Inbound Travel Trips in Millions (Includes Same-Day Leisure, Work & Overnight Trips) 2020 Estimate

COVID-19 IMPACT ON DATA ROAMING: FORECAST OUTLOOK FROM KALEIDO

Growth in Outbound Roaming Data Traffic in Petabytes, Consumer & Cellular IoT Device Traffic

Operators will innovate to launch new cheaper roaming plans, day passes and extend RLAH to newer markets and travel corridors to drive usage as travel recovers.

5G CONSUMER & IoT ROAMING OUTLOOK 2025

Growth in Outbound 5G Data Roaming Traffic in Petabytes, Consumer & Cellular IoT Device Traffic

Kaleido forecasts that the number of 5G roamers will reach 310 million in 2025, representing an average annual growth rate of 363% over the next 5 years.

VoLTE Roaming Taskforce Update

14:15 – 14:25

Dhiraj Wazir, CEO

ROCCO Strategy

VoLTE ROAMING TASKFORCE UPDATE

www.volteroaming.com

WHO WE ARE?

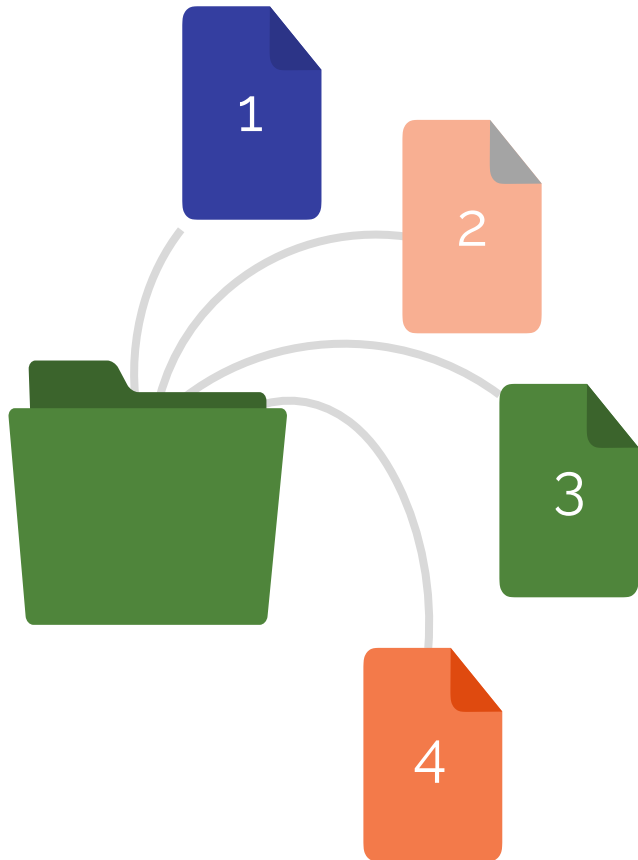

The VoLTE Roaming Taskforce is an **MNO member only** initiative founded and facilitated by ROCCO with a mission to mobilise the industry, search for and streamline solutions to accelerate implementation of VoLTE Roaming across mobile operators with the clear view to also start charting the path for Voice over 5G.

All MNOs are invited to join this open taskforce.

The Taskforce is chaired by **Jason Olivieri from Verizon USA.**

MAIN CHALLENGES

- 1
 - Awareness & link with decommissioning::
 - LinkedIn Group, website, blogs.
- 2
 - Handset Vendors & Testing
 - Verizon Engagement, Handsets identified,
 - Solutions Identified.
- 3
 - Emergency Calling
 - Further research and recommendations
- 4
 - Lawful Intercept
 - Solution Presented.

Operator's perspective Verizon

14:25 – 14:35

Jason Olivieri,
Manager Roaming Marketing

Verizon Customer Group

VoLTE & 5G Roaming

Insights

Jason Olivieri

Confidential and proprietary materials for authorized Verizon personnel and outside agencies only. Use, disclosure or distribution of this material is not permitted to any unauthorized persons or third parties except by written agreement.

VoLTE

Emergency numbers

Non national – local emergency numbers beyond 112/911 – Regulator expectation!

- VPMN advertises all local emergency numbers during Attach sequence.
- HPMN develops a solutions to list all local emergency numbers where the VPMN does not advertise emergency numbers during attach
- Standardize the the approach to local emergency numbers. (GSMA)

Device

- All OEM's enable all devices with VoLTE on
- Apple communications process.

5G –

Experience

- Testing has been smooth.
 - Testing on n78 networks has yielded speeds of 300Mb DL to 600Mb DL
 - AVP modification required
- Device
 - Frequencies
 - Carrier agnostic software build
 - Planning
 - Apple 5G NR (Bands n1, n2, n3, n5, n7, n8, n12, n20, n25, n28, n38, n40, n41, n66, n71, n77, n78, n79)

5G^v

Operator's Perspective Reliance Jio

14:35 – 14:45

Luc Lamoureux,
Director International Roaming
and Network Planning

Reliance Jio

Reliance JIO - India

- JIO is the newest operator in India
 - Roaming launched May 2018
 - Looking for VoLTE partners
 - IMS must be unencrypted for Lawful Intercept
- JIO 5G
 - Intent to launch but cannot discuss since auction in India pushed to 2021
 - NSA has same Diameter signaling as LTE and VoLTE
- JIO has NB-IOT network pan-India
 - Support Guardband for 3, 5 & 40 for roaming in India and also domestic

The 5G IPX Perspective

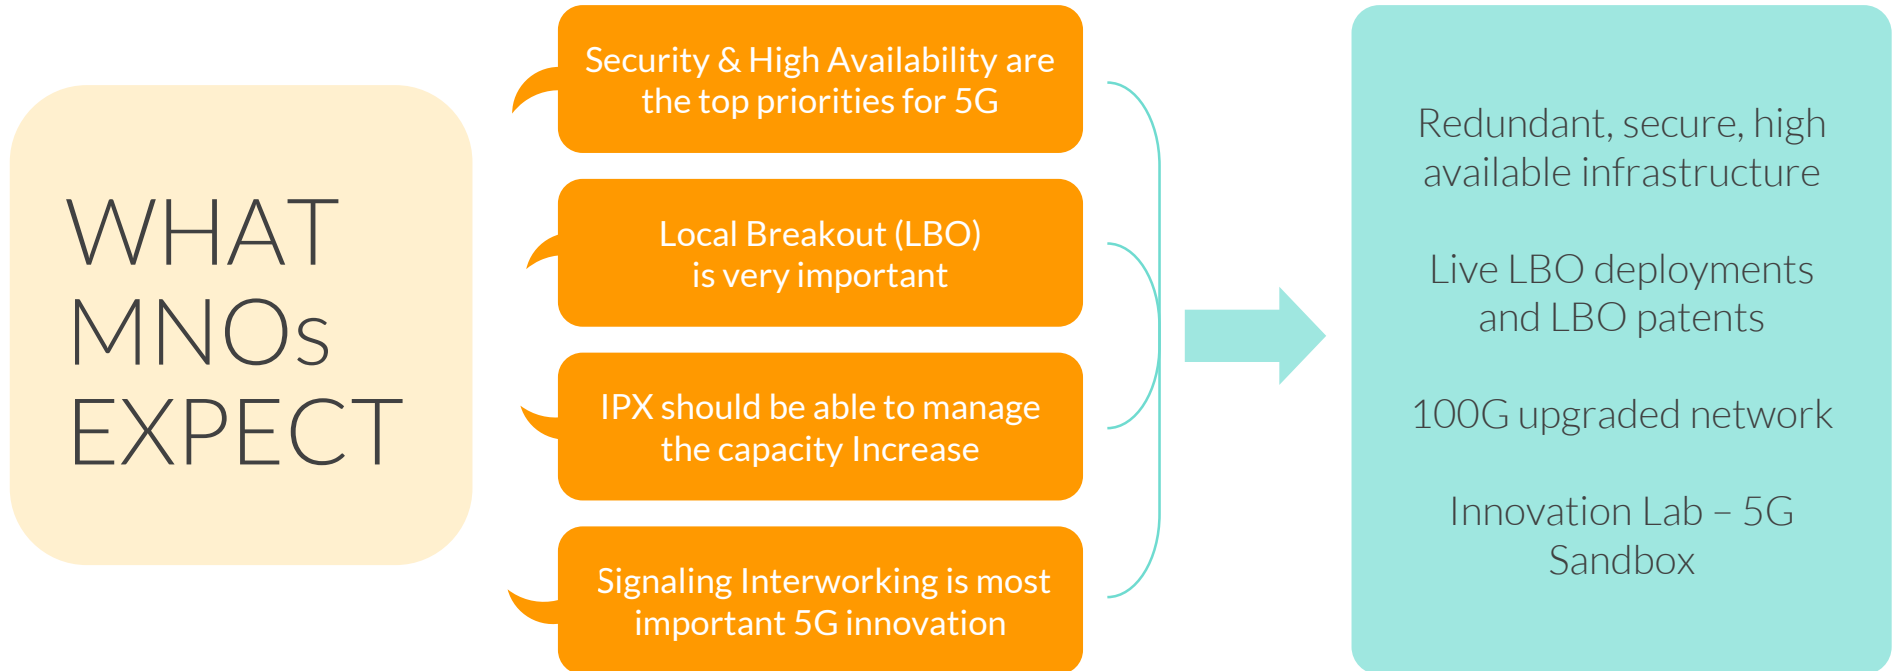

14:45 – 14:55

Mehmet Turunc, 5G Product Lead

iBASIS

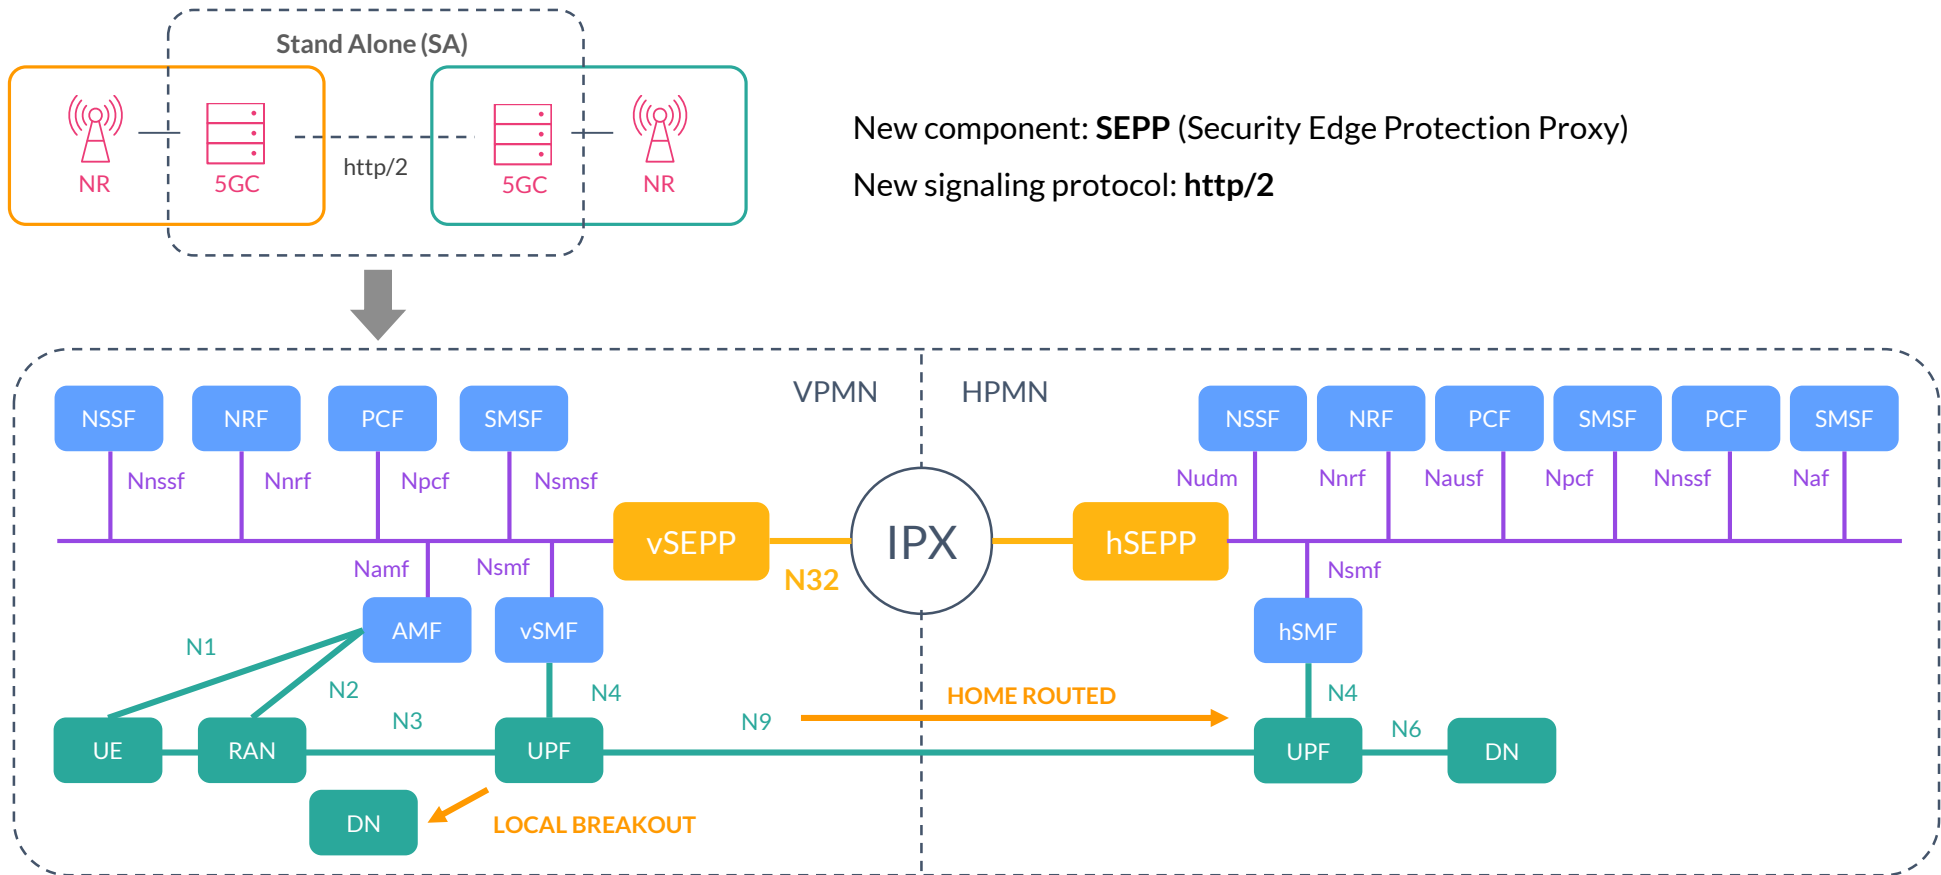

WHAT DO MNOs EXPECT MOST?

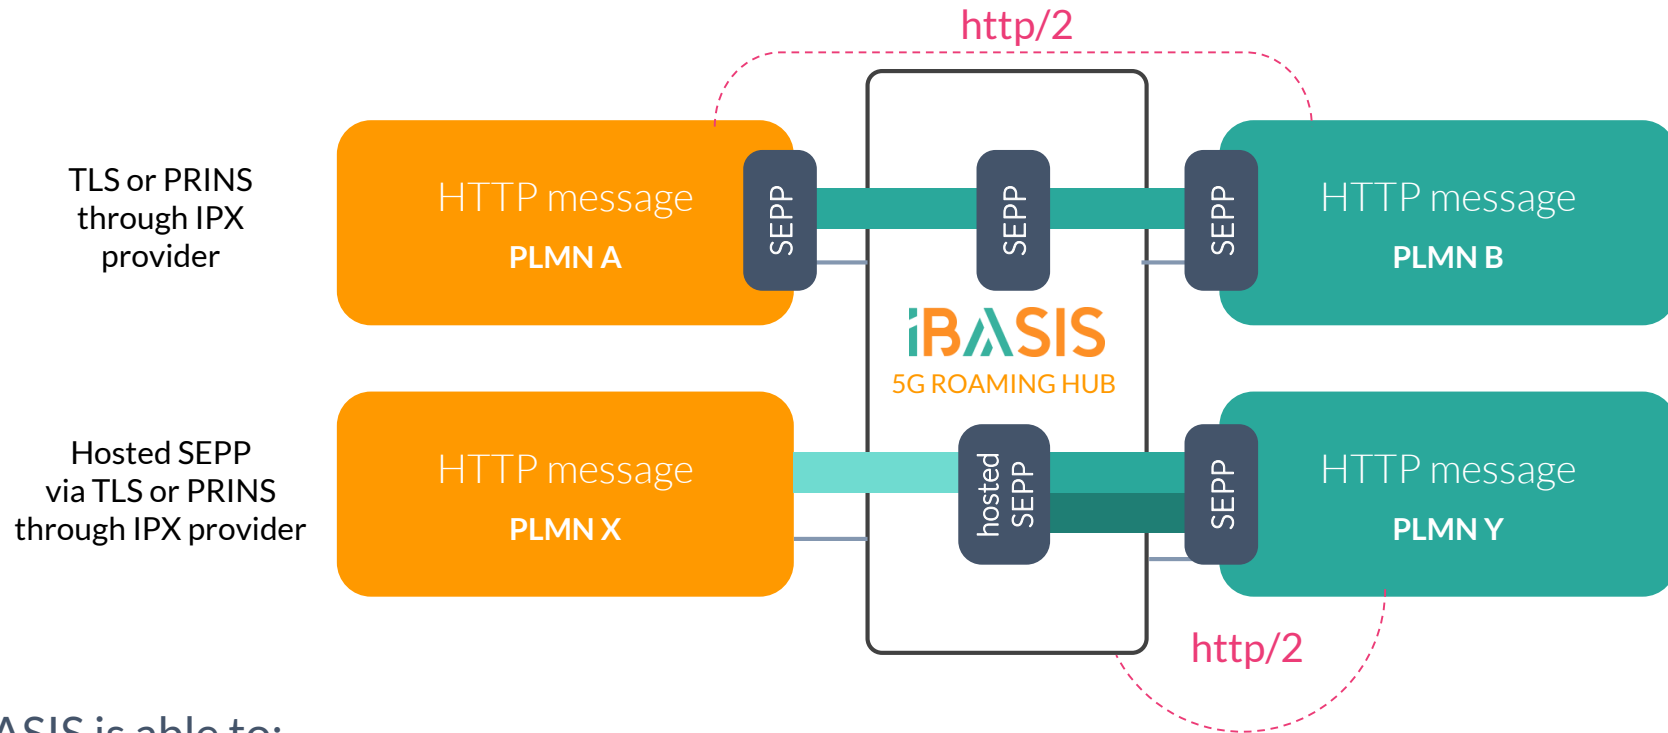

Survey data based on 60+ participants

iBASIS preparations

WHAT ARE THE NEW FUNCTIONS IN 5G?

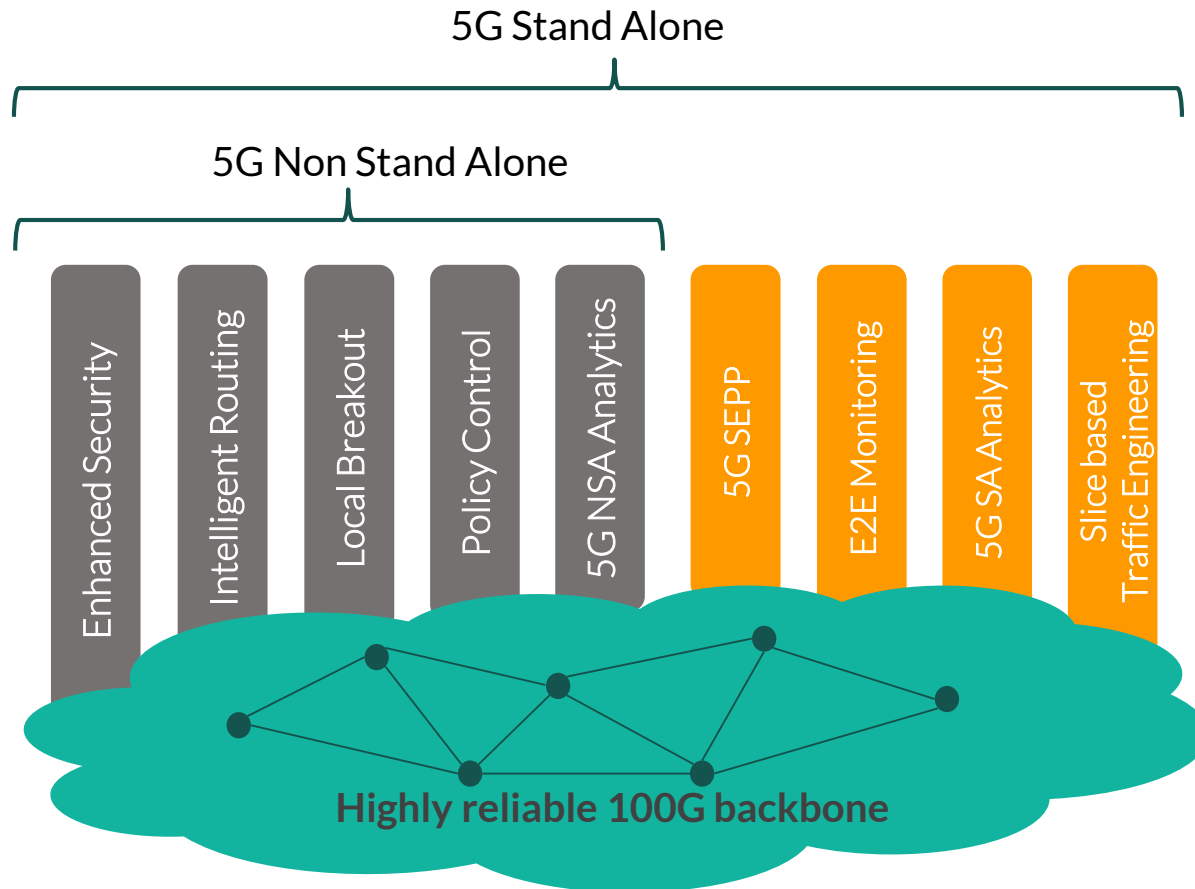

New component: **SEPP** (Security Edge Protection Proxy)
 New signaling protocol: **http/2**

iBASIS is able to:

- interconnect SEPPs of the MNOs
- provide MNOs a hosted and managed SEPP
- provide additional layer of security with monitoring, signaling firewalls and DDOS prevention

iBASIS - 5G READY - NETWORK EVOLUTION

iBASIS 5G SIGNALING ALIGNMENT

- Contribution to 5G working groups in 3GPP & GSMA for “5G Interconnection models standardization”
- Local breakout is live and has been used for many years with unique iBASIS patents
- Live NB-IoT use cases as a driver of 5G massive Machine Type Communications (mMTC)
- Whole new security approach with enhanced monitoring, signalling firewalls and DDOS protection

LET'S CONTINUE THE DISCUSSION ABOUT THE 5G ROAMING JOURNEY

iBASIS INNOVATION EXCHANGE

Insights, webinars, data & demos for
the exchange of new ideas
