

## CERTIFIED VOICE®

Best Cost and Quality Balance  
Voice Termination

iBASIS Certified Voice® provides cost savings and reliable quality that allows carriers to remain profitable in the voice segment of their business with zero investment in network infrastructure or route performance monitoring and simple plug and play interconnects.

### PROVEN EXPERTISE

As one of the largest carriers of international phone calls in the world and 25 years of experience in IP telecommunications, iBASIS has the network infrastructure, scale, and proven expertise that carriers rely on. iBASIS Certified Voice enables voice providers to serve customer demand for international service with a cost effective solution that meets the necessary price point for key destinations worldwide while delivering the reliable quality that operators require.

### FULL COVERAGE

iBASIS routing is managed for maximum completion of offered calls, making the service ideal for small retail customers and VoBB carriers.

Certified Voice provides competitive A-Z rates along with active LCR management to ensure full coverage and capacity, with routes selected based on providers that deliver the best stability, cost, and voice quality.

Certified Voice offers over 2,000 destinations in customized lists.

### KEY BENEFITS

Full Coverage and  
Competitive Pricing

Patented Real-Time Quality  
Monitoring and Management

Designed for Consumer Voice  
over Broadband Operators,  
Pure Wholesalers, and Tier II  
and III Retailers

### BE THERE FIRST

Looking for a customized solution?  
Talk to one of our specialists  
at [info@iBASIS.net](mailto:info@iBASIS.net).

### INTERCONNECT OPTIONS

- Private, dedicated IP circuit to an iBASIS ICO (SIP plus SIP-I signaling recommended)
- IP connections via the public Internet from anywhere in the world, leveraging iBASIS proprietary IP technologies for superior quality

### PROACTIVE MONITORING AND QUALITY MANAGEMENT

iBASIS manages certified routes proactively to maintain stable and market-conforming performance. By monitoring certified routes 24/7 in near real time, iBASIS network operations center (NOC) specialists are able to anticipate potential problems as well as immediately address trouble reports to maintain quality. iBASIS utilizes its direct interconnections, Tier I providers, and carefully monitored niche carriers to ensure the optimal cost/quality balance for our customers.

### PRICING STABILITY

Certified Voice provides retail customers with reliability and stability in their international routing, so they can stay focused on cost optimization and growth in their retail business. Certified Voice pricing is generally more stable than other wholesale voice products. With Certified Voice, iBASIS offers retail service providers a great strategic advantage in the international voice market, ensuring that their retail customers receive the international call quality that they require while taking full advantage of iBASIS lower cost VoIP infrastructure.

### PREPAID SUPPORT

Additional services available to customers who prefer to make use of prepayment:

- Monthly overview of account balance, usage, and registered traffic volumes
- Notification when account balance requires additional payments

### ABOUT iBASIS

iBASIS is the leading communications solutions provider enabling operators and digital players worldwide to perform and transform. Powered by Tofane Global, iBASIS represents an estimated USD 1+ billion in annual revenue, is the third largest wholesale voice operator, ranks as the Top 3 LTE IPX vendor with 700+ LTE destinations, and serves 1,000+ customers across 18 offices worldwide. iBASIS optimizes access, connectivity, and value-added solutions, so customers achieve high return on voice, mobile data, and IoT requirements to be first in their respective markets and in the digital era.
